Fleetguard CS41018/CS41019 with SpiraTec™ Drop-In Lube Centrifuge

Fleetguard **Fleetguard CS41018/CS41019 with SpiraTec™ Drop-In Lube Centrifuge**
A SMARTER SOLUTION FOR CHANGING OILS

High Performance, Low Costs
Cummins Filtration has found a replacement drop-in, disposable rotor solution for centrifuges in SpiraTec™ and other centrifuges used in high horsepower applications.

The new CS41018/CS41019 replaces the rotor with a single, drop-in assembly. This new disposable rotor using our patented SpiraTec technology offers better maintenance of available oil and savings without any compromise in filter performance.

Benefits of the Fleetguard CS41018/CS41019 Lube Centrifuge

- Meets OEM specifications, meeting performance and application requirements for your engine
- Minimum service life of 1,000 hours
- Designed to allow for quick filter change without any special tools. Reduces service time from 1.5-2 hours to approximately 15-20 minutes
- Low filter drag during operation
- Safe and clean and requires total control assembly
