The Fleetguard LF14000NN: Trusted OEM Filtration for Cummins® ISX15 & X15 Engines

Money-Saving Technology

The unique design of the Fleetguard LF14000NN delivers powerful benefits that positively impact your bottom line:

- Greater Fuel Efficiency
- Increased Engine Protection
- Increased Vehicle Uptime

How it works

Our ultra technology maintains 2 to 4 microns to optimize performance in the worst conditions, while protecting critical in-line engine and emission related components by any time when on the market.

1) UltraPure® Media
Removes large particles from engine oil to be recirculated.

2) UltraPure® Media
Removes smaller particles to be recirculated.

Saved Over
\$7.5 Million
in Fuel Costs

The LF14000NN is engineered to provide the best fuel economy of any filter on the market, saving our customers over

3 MILLION GALLONS
OF FUEL AND COUNTING.*

*Based on 2014 engine test cycle.

Eliminated Over
30 Metric Tons
of CO₂

Built by the Best Name

As a leader in engine and emission filtration, the only filter company built by an engine company, we know what it takes to maintain your investment in your equipment. In fact, it's the only filter engineered and validated by a company that has designed engine and emission.

Backed by the Best Warranty

Unlike our competitors who use pro-rata coverage, our warranty protection allows you to get a replacement through the recommended life of the product, setting us apart from the rest.
