

FleetguardFIT LED Air Restriction Indicator

A visual signal of when to change your air filter.

How It Works

- Monitors restriction across the filter
- LED indicator changes color (green, yellow, red) based on restriction
- Provides visual indication and electrical signal of filter status
- Available in both 21" and 25" termination restriction

FleetguardFIT LED indicator is bright and easy to see when installed.

Clean Filter

Partially Loaded Filter

Filter Needs Service

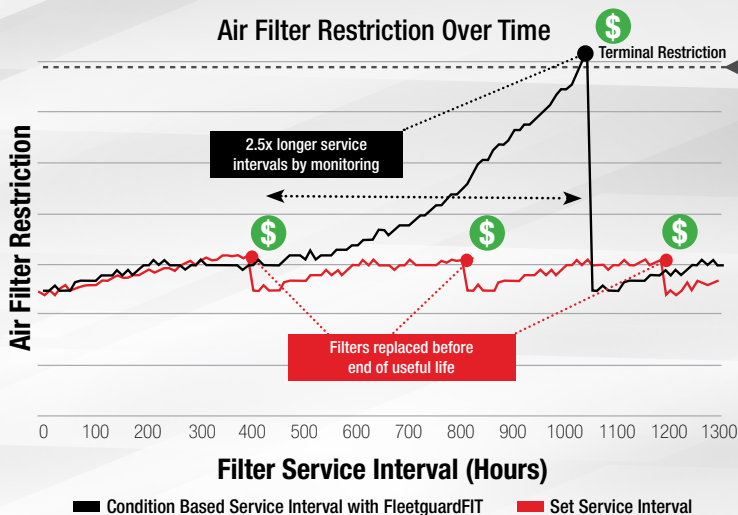

Conventional vs. FleetguardFIT Features & Benefits	 Conventional, Manual Air Restriction Gauge	 Fleetguard LED Restriction Gauge
Accurate, reliable, and continuous electronic measurements	✗	✓
Dynamic, Color-coded Visual Indication of Service Life	✗	✓
Integrated into vehicle telematics for real-time data analysis	✗	✓

Proven to Lower Operating Costs

Know Exactly When to Service

- Proactively turn break-downs into planned maintenance events
- Service only as needed to get maximum life out of your air filter
- Indicator provides visual, accurate information for timely maintenance decisions

LED visual air restriction indicator allows condition based maintenance and can lead to thousands of dollars in filter and maintenance cost savings over the life of the engine.
