

Fuel Extended Service Filtration Solutions for Cummins Stage IV QSG 12L

Higher Performance, Extended Service and Lower Operating Expenses

The new Fleetguard® FF63057NN fuel filter featuring NanoNet® media:

- Reduces the number of harmful particles reaching the engine's fuel injectors.
- Results in less equipment downtime and lower total cost of ownership (TCO).
- Delivers maximum engine and filter life, minimizing your operating costs.

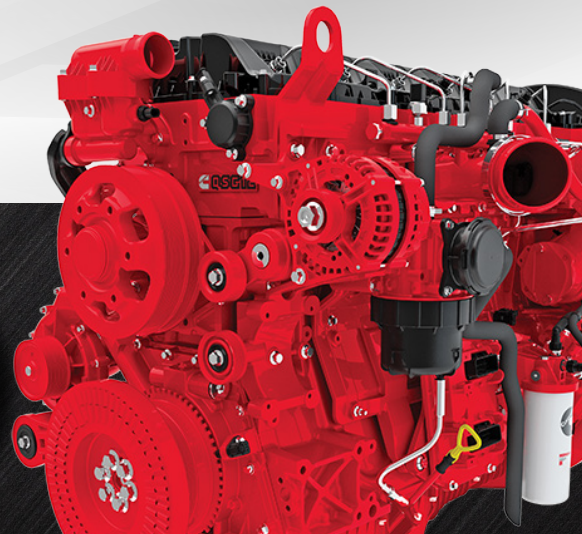

500 Hour Capable FF63057NN Fuel Filter

Fleetguard FF63057NN Delivers Extended Service and Value:

- Not only removes harmful hard particles but also retains them during vibration better than any competitive product in the market today.
- Extended service intervals of 500 hours that minimize maintenance costs and maximize uptime.
- Backwards compatible for Cummins engines that have a fuel filter that is remote mounted.

Best Warranty in the Business.

When you buy a Cummins Filtration product, you can rest assured that you have superior warranty protection from the point of purchase through the recommended life of the product. Unlike industry competitors, our warranty coverage is not pro-rated, which means you are fully protected through the recommended service life of the product.
